

Module 3 note

(UDDI and BPEL)

Service Discovery UDDI

① review the usage in service request/provider side .

② service discovery definition (rave!)

③ UDDI definition

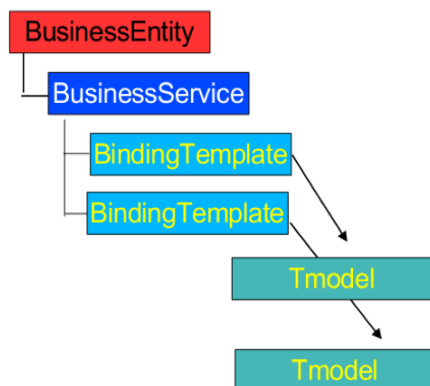

④ main uses of UDDI (What uses UDDI?)

1) service consumer: tool building client

2) service provider: tool publishing the service

3) application: app that needs dynamic binding

⑤ UDDI Data Model/Types

⑥ some discussion and review ...

⑦ VDDI wide adoption failure .

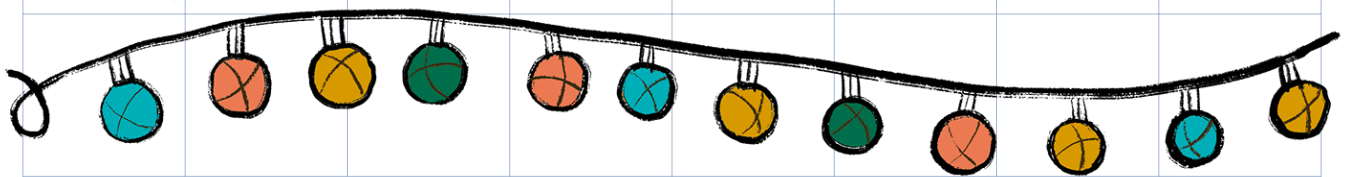

⑧ alternative way - private VDDI

⑨ alternative use of VDDI

An important example:

VDDI registry in a large enterprise .

结语: Even though VDDI isn't widely used,
the concept behind it still very relevant .
